

CHRYSLER

2005 TOWN & COUNTRY

Five-Star Side Impact Crash Test Rating

Chrysler Town & Country received a five star rating—the highest government side crash test rating for LX, TOURING, and LIMITED. Town & Country brings together spaciousness, style, and safety so you and your passengers or cargo can look great on the road, and feel safe while you're there.

SEATING & STORAGE

Town and Country has plenty of room for seven to travel in comfort and style. And when it comes time to carry cargo instead of passengers, new Stow 'n Go™ seats on long wheel base models or Easy-Out® roller seats adapt to create more than 165 cubic feet of cargo space.

When your Stow 'n Go™ seats are upright, spacious underfloor storage bins give you an additional 12 cubic feet of storage space. The second row storage bins are equipped with lids and cargo nets for added convenience.

Rear temperature controls and a new overhead rail system with three movable/removable storage bins are standard on Limited and available on Touring. A DVD screen is optional on both models.

ROLL-OUT SEATS

Easy-Out® roller seats on Town & Country Base model allow you to create the exact layout you need quickly and easily. They can be removed and rolled away on their aircraft-style wheels, folded forward or tumbled for extra storage and utility space.

SEATING FEATURES

7 seats to 2 in 30 seconds is as easy as 1,2,3. Chrysler's minivan-first two-row Stow 'n Go™ seating and storage system provides unmatched convenience, versatility, and storage. The second- and 60/40 split third-row seats fold into the floor quickly and easily, so you can go from seven seats for hauling the whole family to two for hauling everything else in about 30 seconds. Stow 'n Go™ seating is standard on LX, Touring, and Limited.

Your third-row seats also flip back to provide tailgate seating. Put it together, and you'll have all the seating flexibility you and your family will need—just the kind of innovation you expect from twenty years of minivan leadership.

Remember to properly secure all cargo.

For more information, please visit www.chrysler.com/town_country

INTERIOR FEATURES

Three-Zone Temperature Control

Three-zone temperature control includes separate temperature controls for driver, front-, and rear-seat passengers, allowing them to set the temperature to their comfort. It's an automatic system on Limited and available on Touring; a manual version is standard on Touring and available on Town & Country LX. Short-wheelbase Town & Country model has two-zone temperature control.

Quiet

Town & Country provides a quiet, comfortable ride. Its rigid body structure not only contributes to solid ride and handling characteristics, but also minimizes the transmission of road noise, vibration, and harshness (NVH). Improvements for 2005 include Quiet Steel^{®*} technology in the recessed floor, where steel and a viscoelastic layer reduce vibration and road noise. In addition, engine mounts, suspension bushings, and the entire underbody structure have been designed to diminish NVH. All this quiet lets drivers enjoy the road, while passengers enjoy Town & Country's available entertainment systems.

Power Moonroof

The power of luxury goes right to the top of Town & Country with an available power moonroof. With the touch of a button you can use the vent or open it all the way to let in the moon and stars.[†]

** Quiet Steel is a registered trademark of Material Sciences Corporation.*

† Power moonroof option deletes supplemental side-curtain air bags for all three rows and overhead console with or without rail system.

ENGINEERED SAFETY

Town & Country was designed and engineered with your family in mind to help make every trip as safe and secure as possible. Standard on short wheel base models are next-generation multistage driver and front passenger air bags.* Long wheel base models are equipped with advanced multistage driver and front passenger air bags with an occupant classification system (OCS).* The OCS adjusts the deployment force of the passenger-side front air bag based on passenger weight. A standard driver's inflatable knee blocker adds more protection.

Supplemental side-curtain air bags* for all three rows offer additional protection to outboard occupants. They are standard on Limited and available on all Town & Country models.

**Always sit properly in the seat with the seat belt fastened. Always observe the passenger airbag indicator lamp to determine if the OCS classification is appropriate. Children 12 and under should always be in a back seat correctly using an infant or child restraint system or the seat belt positioned correctly for the child's age and weight. Power moonroof option deletes supplemental side-curtain air bags for all three rows and overhead console with rail system.*

AVAILABLE SEAT COLORS

The Town & Country lineup includes a number of stylish and comfortable seat-trim options including Sutton Leather with Preferred Suede® inserts, Sutton leather, and Vegas cloth.

1. Sutton leather trim with Preferred Suede® inserts is standard on Limited in Medium Slate Gray (shown) or Light Graystone.

Sutton leather trim is available on Touring in Medium Slate Gray or Light Graystone (not shown).

2. Cloth bucket seats with adjustable head restraints are standard on long-wheelbase Town & Country LX and Touring, and included on short-wheelbase Town & Country when equipped with power driver's seat in Medium Slate Gray or Khaki (shown).

WHEEL OPTIONS

Chrysler Town & Country offers a variety of wheel choices.

1. 15-inch wheels with Accent wheel covers are standard on Town & Country and Town & Country LX
2. 16-inch Consul aluminum wheels are standard on Town & Country Touring
3. 16-inch Consul chrome-clad wheels are standard on Town & Country Limited
